OBJECTIVE

Hardworking and computer-literate university student seeking a position as a Computer Operator / Sales Executive where strong computer skills, attention to detail, and client-facing experience can support day-to-day operations, data handling, and customer relationships. Reliable, quick to learn new systems, and comfortable working under deadlines.

KEY SKILLS

Computer Proficiency: MS Word, MS Excel, MS PowerPoint, fast and accurate typing, internet research, email handling

Office & Admin: Document formatting and preparation, data entry, record keeping, report writing

Customer & Sales: Client communication, client relationship handling, negotiation, order/project follow-up

Personal: Time management, teamwork, problem solving, adaptability, quick learner

Languages: English (fluent, written & spoken), Urdu (native)

EXPERIENCE

Founder / Manager | PixelVerse (Small Business)

Sept 2024 – Present | Sialkot

- Manage day-to-day client communication and order handling for a small design and social media service business.
- Handle scheduling, follow-ups, and client requirements from initial inquiry through to final delivery.
- Prepare client-facing documents, quotes, and reports using MS Office tools.
- Coordinate a small team and keep projects on track against deadlines.

EDUCATION

BS Computer Science | University of Sialkot

In Progress | Sialkot, Pakistan

- Strong, up-to-date computer skills including word processing, spreadsheets, and general office software.
- Coursework in Organizational Behaviour, covering workplace communication and professional conduct.

CERTIFICATIONS

Prompt Engineering — Coursera

Dec 2023 – Jan 2024

- Completed a certified course in applying AI tools to everyday problem-solving and workflow tasks.

ADDITIONAL INFORMATION

- Comfortable operating standard office computer systems, printers, and common business software.
- Available for immediate start; open to on-site work in Sialkot and nearby areas.
